

## ANALOG INPUT BOARD

---

### Product Overview

Analog Input Board with 8 inputs.

Easy to re-deploy for different applications and services.

### Features & Benefits

---

- Eight 4-20mA inputs
- 22-bit resolution
- RS-485 communication status indicator
- Screw terminals for field wiring
- Up to 16 can be connected in RS-485 network (Address selection switches available)
- Supply input voltage 12-24V maximum
- Nominal voltage – 12V DC

## Technical Specifications

---

### Applications

Process monitoring

---

Data acquisition systems

---

Industrial robotics

---

Voltage measurement

---

Automatic test equipment

---

Instrumentation

### Physical Dimensions

Overall dimension – 127mm x101.6mm

---

Front connector- Term Block HDR 8Pos Vert 5.08mm

---

Weight – 100g

### Communication & Ports Configurations

RS-485

---

Baud rate- 9600 bps

---

Data bits- 8

---

Stop bits- 1

---

Parity- NO

---

Handshaking- NO
