

## MAGIC LIGHTS

---

### Product Overview

LED driver board with USB to UART Communication

### Features & Benefits

---

- USB data communication
- Baud rate- 9600, 8N1
- Rotation patterns
- Fade-in and Fade-out patterns
- Blinking patterns
- Input voltage - 12-24V maximum
- Nominal voltage – 12V DC

## Technical Specifications

---

### Applications

USB to UART communication

---

LED driver

### Physical Dimensions

Overall dimension – 63.50 mm x 38.10 mm

---

Input connector – Mini-USB

---

Weight – 14g

---

Mounting hole details – M3; Hole pitch – 58.42mm x 33.02mm

### Communication & Ports Configurations

USB data communication

---

UART communication
